## industry direct

Find out how BCIT Applied Research can help you find a solution.

Research conducted at BCIT focuses on activities with industrial and commercial relevance, where partnerships lead to benefits for the institution, business and industry, and students.

## what's new

## Visit by the Honourable Carol Skelton

The British Columbia Institute of Technology was delighted to host a visit by the Honourable Carol Skelton, federal Minister of National Revenue and Minister of Western Economic Diversification. The Minister made very positive remarks to an enthusiastic group of BCIT staff, and announced a \$507,000 Western Economic Diversification contribution to BCIT. [News Release](#) [PDF, 100KB].

Dr. Norman Streat and Mr. Matt Mintz made a presentation to the Minister and members of the BCIT community regarding BCIT's current and recent Western Diversification-funded research activities.

## research: applied

Showcasing research around BCIT...

View award-winning videos of innovative research projects by faculty, staff and students.
